Product Use/ Host Charging

1.Placing and charging :The charging seat is against the wall and placed on a flat ground. Do not place articles within the range of 0.5m left and right and 1.5m ahead.

2.Connect the power supply.

3.Installing side brush:Install the side brush according to the left and right (L/R).

4.Charging:Place the host on the charging seat for charging (during charging, the indicator light flashes and the charging is over, and the light is always on.The charging time is about 5 hours.)

During the cleaning process, the host can sense that its power is insufficient and automatically start the recharging mode to automatically find the charging seat to charge.You can also command the host to start the recharging mode through the back charging key of the remote controller.

! Charging attention:

- 1.The charging seat cannot be used in environments with strong reflection such as direct sunlight and nearby mirrors. If there is any object with strong reflection, please cover it 7 cm from the bottom.
- 2.In order to ensure the normal working hours of the host computer, please fully charge it before use. The charging time is about 5 hours.
- 3.When charging, do not bring the water tank assembly for charging, so as to ensure the safety of charging and prevent wet rags from damaging the floor.

Product Use / Start Cleaning

According to different cleaning needs, this product has a variety of cleaning mode to choose from. You can start various cleaning mode through a host, remote control or app.

Automatic Cleaning

Applicable scenario:The most commonly used cleaning method is that the main engine uses a bow-shaped path to plan and clean the whole house according to the actual home environment.

Setting method:In the shutdown state, press the key for a long time. when the indicator light of the host is on, it indicates that the host is powered on.When the key is pressed for a short time, or press the automatic cleaning bottom , the host starts automatic cleaning.

Single Room Cleaning:

Applicable scenario:Used to cleaning the single room

Setting method:Click the remote control mode switch button  to select the single room cleaning mode to start the single room cleaning.

Warm Tip:When it is only necessary to clean a single room, please close the door and the host will do centralized cleaning in the room .

If this room does not have a charging seat, the cleaning will return to the original point.

Border Sweeping

Applicable scenario:For indoor corner cleaning, the host cleans along the perimeter of fixed objects (such as walls), and returns to the charging seat after the border work is finished.

Setting method:Click the remote control mode switch button  to select the border cleaning mode to start the border cleaning.

Manual Control

Applicable scenario:Suitable for manual control cleaning.

Setting method:Click on the button of the remote controller  to control the machine to move forward and backward and turn.

Product use / pause , wakeup and shutdown

Suspend:During the operation of the host, press the host key or the remote control pause key  to pause the operation of the host.

Awaken:If the host stops working for more than ten minutes, it will automatically enter sleep mode (all the host lights are off).You can wake up the host by clicking the host key first, then click the host key or any key of the remote controller and app to restart your work.

Shutdown:After the host stops working, press the host key for a long time, and the indicator light of the host machine goes out to indicate that the machine has been shut down.

*After the host computer finishes its work, it is recommended not to shut down it so as to keep it in a state of charge so as to better carry out the next work.

Product Usage / Reservation Settings

Reservation setting:Press the remote control reservation setting button  to set the host reservation cleaning time.Press the button  ,then press the key  to set the reservation time.After it,press the button  ,then the setting is completed.The host will automatically clean up at the reservation time of each day.

PS:Before the reservation setting,you need to use the button  to set the clock of the host first.Press the button  ,then press the key  to set the time of host.After it ,press  ,then the setting is completed.
